This program takes place in Raleigh at Lake Johnson Park's Waterfront Program Center from 9:00-4:00.

Flying WILD workshops provide activities to teach middle school students about birds, their migration, and what people can do to help birds and their habitats. The activities can be used to teach classroom lessons or to set up service-learning projects about birds and their habitats. The guide can even provide activities for a bird festival. This workshop counts as a Criteria I credit in the NC Environmental Education Certification Program or CEUs. Participants should bring a bag lunch and dress for the weather.
