

Green Growth Toolbox Workshop April 27th, 2018 hosted by Brunswick C

Start Date: 4/27/2018 9:00 AM

End Date: 4/27/2018 4:00 PM

Wildlife & Natural Resource Stewardship in Planning

This workshop is free.

The Green Growth Toolbox (www.ncwildlife.org/greengrowth) was developed by the N.C. Wildlife Resources Commission and is a non-regulatory tool that communicates recommendations about conserving priority wildlife habitats that are declining in our region through land use planning methods. The goal of the Green Growth Toolbox is to keep species from becoming endangered. The Toolbox provides information on conservation development incentives and how to remove regulatory barriers to better resource conservation. This type of proactive planning secures benefits for our communities, the future of our wildlife and economy, helps to protect working farms and forests, and helps to ensure that development permit requirements are met ahead of time.

The workshop consists of a morning session of interactive presentations and hands-on exercises followed by a field trip to a nearby wildlife habitat. Those participating in the full day event will be eligible for 5 NCBLA continuing education credits and 5 American Planning Association credit hours . Professional Engineers & Surveyors and Zoning Officials can self report credits. All participants will receive a free Green Growth Handbook, and access to GIS map layers.

Who should attend: land use and transportation planners, local planning board members, elected officials, landscape architects, consultants, GIS specialists, developers and others involved in land use planning.

Dress for the weather if you plan to attend the field trip! Please register by 4/25/18.

We hope you can attend!

Kirstie Dixon, Director of Planning and Community Development, Brunswick County, 910-253-2027, kirstie.dixon@brunswickcountync.gov

Marilyn Graham, Director of Business Innovation and Sustainability, Brunswick Community College, 755-7300, grahamm@brunswickccc.edu

Kacy Cook, N.C. Wildlife Resources Commission, (910) 638-4887 , kacy.cook@ncwildlife.org
