Proposed Wildlife Resources Commission (WRC)

Fiscal Note for Proposed Lands Management Rules for the Wildlife Resources Commission

15A NCAC 10B .0203

15A NCAC 10D .0102

15A NCAC 10D .0103

This fiscal note analysis pertains to a series of proposed amendments to or adoptions of rules that the Wildlife Resources Commission (WRC) voted to take to public hearing. The purpose of each proposed rule amendment or adoption is set forth below.

For the following 4 rules the Wildlife Resources Commission intends to notice for permanent amendment, the Commission determined the following impact:

Impact: Local Funds: No

State Funds: Yes (Minimal)

Substantial Economic Impact: Does not meet \$1,000,000 threshold

Authority: G.S. § 113 – 134

For reasons which are outlined below, WRC believes that these rule changes do not meet the criteria requiring a fiscal note pursuant to G.S. § 150B-21.4. An analysis of the proposed changes for each rule follows.

PROPOSED RULE CHANGES

Background

The wildlife resources of the State belong to the people of the State as a whole, including the enjoyment of these resources. (G.S. § 113-131(a)). WRC is tasked with the conservation of wildlife resources of the State (G.S. § 143-239). This mission responsibility includes managing as equitably as possible the various competing interests regarding these resources, including the use and take of such resources. (G.S. § 113-131.1(a)) The statutes governing wildlife resources are found in Chapter 113, Subchapter IV of the General Statutes, and WRC has been granted rulemaking authority to implement the provisions of these statutes. (G.S. § 113-134)

As part of its mission, WRC conducts an annual review of its fish, wildlife, boating safety, and other regulations to determine whether such rules need to be adjusted in order to accomplish the objectives of: managing wildlife resources through a biologically sustainable harvest of such resources by hunters, trappers and anglers consistent with sound conservation objectives; ensuring the safety of the boating public; managing Commission-owned land for the conservation of wildlife resources and the enjoyment of the public; and implementing legislative directives. This review generally begins internally in July, and culminates with rule proposals in November. The proposals are taken to at least nine public hearings in January, and those proposals subsequently adopted or amended by the full Commission are reviewed by the Rules Review Commission in April.

A summary of the proposed rule amendments is shown below, with the full text of each included in Appendix A.

15A NCAC 10B .0203

Description and Justification

The proposed amendment to this rule will move the opening date for hunting deer with all lawful weapons on Lake Mattamuskeet Refuge and Alligator River National Wildlife Refuge from the Saturday on or nearest October 15 to the Saturday on or nearest September 10. This change will provide refuge managers with the flexibility to offer gun hunting opportunities for deer earlier in the year, which will reduce the potential for conflict with the primary refuge mission of managing for migratory waterfowl.

Impact

No impacts are anticipated. This change will allow existing opportunities for deer hunting to be shifted to an earlier time frame, but it is not anticipated that any existing opportunities will be eliminated or that any new opportunities will be created as a result of this change. Deer hunting opportunities on the refuges are administered as permit-only hunts through the WRC Permit Hunting Opportunities Program. However, US Fish & Wildlife (USF&W) determines when these opportunities will occur and numbers of hunters allowed. As a result of this proposed change, it is anticipated that USF&W will shift existing hunts to occur earlier in the season, but there is no expectation that new hunts will be created or that numbers of hunters allowed will be increased.

There are no associated signs on the grounds to modify as a result of the earlier opening date for hunting deer since the refuge permit hunts are published by WRC. Changing the dates of existing hunts which WRC already publishes will not involve any additional costs.

15A NCAC 10D .0102

Description and Justification

There are a couple of proposed changes to this rule. The first prohibits all public use, between sunset and sunrise, on those portions of game land posted as Day Use Only Zones. Establishment of such zones has been requested by the landowner (Duke Energy) to address undesirable nighttime disturbance of private residential property owners adjacent to Pee Dee River Game Land; specifically along the shoreline of Blewett Falls Lake in Richmond and Anson counties. These activities involve all-night bonfires, loud music, trash, and disorderly conduct. The second change clarifies that possession of weapons on game lands owned by the US Army Corps of Engineers is prohibited except as provided in the Code of Federal Regulations, Title 36, Chapter III, Part 327.13.

Impact

No substantial impacts are anticipated. The establishment of Day Use Only Zones is anticipated to positively affect adjacent landowners by eliminating undesirable nighttime disturbances. Eliminating nighttime disturbances in the vicinity of adjacent residences is anticipated to reduce associated complaints from homeowners and will likely result in minimal time savings for Duke Energy employees, WRC law enforcement officers and local sheriff deputies. There may be unintended negative impacts to hunters and nighttime anglers, but these impacts are anticipated to be limited given that the establishment of Day Use Only Zones will involve on relatively small areas of game land. The impacts to the agency will be limited to investment of staff time to solicit public comments; and the acquisition, posting and maintenance of appropriate signage, which is unlikely to cost more than \$250 per year.

Clarification of weapons possession on game lands owned by the US Army Corps of Engineers is based upon existing applicable federal law and does not represent any impacts which do not otherwise already exist.

15A NCAC 10D .0103

Description, Justification, and Impact

The proposed changes to this rule cover multiple general topic areas as follows: horseback riding, days-per-week designation, geocaching, foxes, wild turkey, J. Robert Gordon Field Trial Area, posted waterfowl impoundments, and administrative changes.

Horseback Riding

Proposed changes to this rule modify the times of year and the locations where people can horseback ride on Chowan Swamp and R. Wayne Bailey-Caswell game lands. The proposed changes will balance competing interests for game land use and minimize environmental impacts, such as soil degradation, compaction, erosion, loss of vegetative cover, damage to wildlife

plantings, and introduction of invasive exotic plant species. On Chowan Swamp Game Land, horseback riding will be restricted to the period of May 16 through August 31, and on Sundays only the remainder of the year on roads open to vehicular traffic and on closed roads and trails posted specifically for equestrian use. Equestrian use on R. Wayne Bailey-Caswell Game Land is also amended by this change to include closed road and trails posted specifically for equestrian use. This change will allow staff to develop opportunities for equestrian users which include roads and trails not otherwise open to vehicles.

The direct fiscal impact of this change is expected to be minimal. Anticipated cost to WRC to post planned trails is approx. \$100. The Commission has no mechanism to determine how the change in available dates and locations to ride will affect rider behavior.

Days-Per-Week Designation

Change the designation of Holly Shelter Game Land from three-days-per-week to six-days-per-week and allow the use of dogs for hunting deer and bear on Mondays, Wednesdays and Saturdays only. This change will maintain the current opportunity for hunting deer and bear with the use of dogs, while creating additional opportunities for all other forms of hunting.

This change has been requested by local small game and non-dog deer hunters who feel their opportunities to hunt on Holly Shelter Game Land are impacted by dog deer and bear hunting. Many small game hunters indicate they do not attempt to hunt until after deer season. This change will maintain the existing 3-day-per week opportunity for hunting deer and bear with the use of dogs, while providing 3 additional days per week for small game, dear and bear hunters who prefer to hunt on days when dogs are not allowed for taking deer and bear.

This change will affect game land hunters, but it is not expected to have a substantial economic impact. Changing open hunting days from three to six is expected to result in increased use, but the Commission has no mechanism to estimate any related change in hunter behavior or the extent to which additional hunting activities may occur. WRC has no reason to believe that this change will affect hunting license revenues. Although there is an expectation of increased use, it is anticipated that this increase will occur among currently licensed hunters.

Geocaching

Restrict geocaching on Holly Shelter and Stones Creek Game Lands to closed seasons and closed days for taking bear, deer, turkey and waterfowl. Geocaching is an outdoor treasure hunting game involving the use of GPS-enabled devices to navigate to a specific set of GPS coordinates and attempt to find the geocache (container) hidden at that location. This change will reduce potential user conflicts and improve the margin of safety by moving the activity outside of major hunting season.

This change is not anticipated to result in substantial economic impacts. Although geocaching is a known activity on Holly Shelter and Stones Creek game lands, the Commission has no data regarding the numbers of participants involved and it is likely that many within the geocaching community voluntarily already avoid hunting seasons for safety reasons. No license is required to geocache on NC game lands and as such, any potential reduction in participation will not result in

related financial impacts to the agency. Financial impacts, if any, will be secondary impacts to local businesses providing associated gas, food and lodging.

Foxes

Prohibit the use of dogs for pursuing or taking foxes during the period of March 15 through July 15 on Bladen Lakes State Forest Game Land in Bladen County. S.L. 2015-144, Outdoor Heritage Act, amends G.S. 113-291.4 by adding a new subsection to read "The Wildlife Resources Commission shall prohibit the use of dogs in hunting foxes during the period from March 15 through July 15 in Bladen Lakes State Forest Game Land." This proposed change is necessary to comply with the amended statute. This statutory change was requested by constituents concerned with allowing the use of dogs to run foxes during the period of time when there are likely to be dependent young in the den.

WRC anticipates only limited indirect impacts as a result of this change, which is proposed in order to comply with statutory directives in SL 2015-144. Prohibiting the use of dogs to pursue or take foxes on Bladen Lakes State Forest Game Land from March 15 – July 15 will impact an unknown number of fox hound hunters. However, the impact is expected to be minimal. Except for WRC sanctioned field trials, 15A NCAC 10D .0102 (f) already prohibits training or allowing dogs to run unleashed on game lands east of I-95 from March 15 – June 15. As such, the impact of the legislative amendment, and the subsequent proposed change to 10D. 0103, is effectively limited to the period of June 16 – July 15. Bladen Lakes State Forest Game Land is a three-day-per-week game land and as such, the additional restrictive period equates to approximately 12 days. No fox hound hunters are likely to discontinue fox hunting as a result of this change and there is no anticipated impact on the sale of licenses associated with fox hunting. Financial impacts, if any, will be secondary impacts to local businesses providing associated gas, food, and lodging.

Wild Turkey

Remove posted Archery Zones from the permit requirement for hunting turkeys on Harris Game Land. One primary purpose of the permit requirement for hunting turkeys on Harris Game Land is to control hunting pressure and prevent potential overharvest. Removing the permit requirement from the 425-acre Archery Zone on Harris Game Land, where the manner of take is already restricted to archery equipment only, is not anticipated to have any significant impact on harvest.

WRC anticipates no significant impacts to result from removing the permit requirement for hunting wild turkey within the posted archery zone on Harris Game Land, where the manner of take is already limited to the use of archery equipment only. Currently, there is a \$5.00 administrative fee required to apply for a permit to hunt turkeys on Harris Game Land. The Commission has no mechanism to determine how many avid bow hunters may currently be pursuing permits for the sole purpose of hunting in the posted archery zone, but would estimate any such number to be extremely low. Therefore, removing the permit requirement is anticipated to have only minimal impact, if any, on the number of permit applications received or the amount of administrative fees collected.

J. Robert Gordon Field Trial Area

Expand opportunity for raccoon and opossum hunting on the J. Robert Gordon Field Trial Area, which is currently limited to open days from the second Monday before Thanksgiving through the Saturday following Thanksgiving, to include all open days from sunrise Monday on or nearest October 15 through the last day of February. This change will provide additional opportunities for hunting raccoon and opossum, with no anticipated negative impacts to the resource or other user groups.

Expanding the opportunity for hunting raccoon and opossum on the J. Robert Gordon Field Trial Area in Richmond County is not anticipated to generate any significant direct impacts. This change will positively impact existing local raccoon and opossum hunters, but is not anticipated to attract new hunters. The expanded opportunity associated with the change will likely result in additional hunting activity by existing local hunters and may also result in some minimal positive impact to local businesses.

Posted Waterfowl Impoundments

Allow youth to hunt on managed waterfowl impoundments from $\frac{1}{2}$ hour before sunrise until sunset on designated youth waterfowl days occurring after the end of the regular waterfowl seasons. Currently, hunting on managed waterfowl impoundments must cease at 1:00 PM. This change will provide youth hunters with the opportunity to hunt the entire day, with no anticipated negative impacts to the resource or other user group.

The Commission expects minimal impact from this proposed change. Expanding the current opportunity from one-half to the entire day is expected to result in some additional hunting activity, but the Commission has no mechanism to determine to what extent.

Administrative

Amendments to this rule involve two administrative changes; establish Texas Plantation Game Land in Tyrrell County as a permit-only area and eliminate rule text regarding Catawba Game Land in Catawba County. Texas Plantation represents a new WRC property acquisition. Due to its unique potential and small size, it is desirable to manage this area as a stand-alone game land. Catawba Game Land in Catawba County has been removed from the NC Game Land Program at the request of the landowner (Crescent Resources) and rule text regarding this game land is no longer necessary.

No impacts will result from either of the proposed administrative changes. The Texas Plantation tract in Tyrrell County is already managed as a part of J. Morgan Futch Game Land. Establishing the Texas Plantation tract as a stand-alone game land does not involve any additional impacts. Given that Catawba Game Land in Catawba County no longer exists, removing the related NCAC text has no potential to generate impacts.

(d) Open Season (Urban Season) for hunting deer:

- (1) Authorization. Subject to the restrictions set out in Subparagraph (3) of this Paragraph and the bag limits set out in Paragraph (e) of this Rule, deer of either sex may be taken with bow and arrow in participating cities in the State, as defined in G.S. 160A-1(2), from the second Saturday following January 1 to the fifth Saturday thereafter. Deer shall not be taken on any game land or part thereof that occurs within a city boundary.
- (2) Participation. Cities that intend to participate in the urban season must send a letter to that effect no later than April 1 of the year prior to the start of the urban season to the Executive Director or his designee at 1722 Mail Service Center, Raleigh, N.C. 27699-1722. Cities must also submit a map of the city's boundaries within which the urban season shall apply.
- (3) Restrictions:
 - (A) Dogs shall not be used for hunting deer during the urban season, except a single dog on a leash may be used to retrieve a wounded deer in accordance with G.S. 113-291.1(k).
 - (B) Only archery equipment of the types authorized in 15A NCAC 10B .0116 for taking deer shall be used during the urban season.

(e) Bag limits. In and east of Vance, Franklin, Wake, Harnett, Moore, and Richmond counties, the possession limit is six deer, up to four of which may be deer with visible antlers. In all other counties of the state the possession limit is six deer, up to two of which may be deer with visible antlers. The season limit in all counties of the State, is six deer. In addition to the bag limits described above, a hunter may obtain multiple bonus antlerless deer harvest report cards from the Wildlife Resources Commission or any Wildlife Service Agent to allow the harvest of two additional antlerless deer per card on lands others than lands enrolled in the Commission's game land program during any open deer season in all counties and parts of counties of the State identified in Part (G) of Subparagraph (a)(2) of this Rule. Antlerless deer harvested and reported on the bonus antlerless harvest report card shall not count as part of the possession and season limit. Hunters may also use the bonus antlerless harvest report cards for deer harvested during the season described in Paragraph (d) of this Rule within the boundaries of participating municipalities, except on State-owned game lands. Antlerless deer include males with knobs or buttons covered by skin or velvet as distinguished from spikes protruding through the skin. The bag limits described above do not apply to deer harvested in areas covered in the Deer Management Assistance Program (DMAP) as described in G.S. 113-291.2(e) for those individuals using Commission-issued DMAP tags and reporting harvest as described on the DMAP license. Season bag limits shall be set by the number of DMAP tags issued and in the hunters' possession. All deer harvested under this program, regardless of the date of harvest, shall be tagged with these DMAP tags and reported as instructed on the DMAP license. The hunter does not have to validate the Big Game Harvest Report Card provided with the hunting license for deer tagged with the DMAP tags. Any deer harvested on lands enrolled in the DMAP and not tagged with DMAP tags may only be harvested during the regularly established deer seasons subject to all the restrictions of those

seasons, including bag limits, and reported using the big game harvest report card or the bonus antlerless harvest report card.

15A NCAC 10D .0102 GENERAL REGULATIONS REGARDING USE

(a) For purposes of this Subchapter, the following definitions apply:

- (1) "Permanent Hunting Blind" means any structure that is used for hunter concealment, constructed from manmade or natural materials, and that is not disassembled and removed at the end of each day's hunt.
- (2) "Target shooting" means the discharge of a firearm for purposes other than hunting, trapping, or self-defense.
- (3) "Youth" are individuals under 16 years of age.

(b) Trespass. Entry on game lands for purposes other than hunting, trapping, or fishing shall be as authorized by the landowner. The Wildlife Resources Commission has identified the following areas on game lands that have additional restrictions on entry or usage:

- (1) Archery Zone. On portions of game lands posted as "Archery Zones" hunting is limited to bow and arrow hunting and falconry only. On these areas, deer of either sex may be taken on all open days of any applicable deer season.
- (2) Safety Zone. On portions of game lands posted as "Safety Zones" hunting is prohibited. No person shall hunt or discharge a firearm or bow and arrow within, into, or across a posted safety zone on any game land. Falconry is exempt from this provision.
- (3) Restricted Firearms Zone. On portions of game lands posted as "Restricted Firearms Zones" the use of centerfire rifles is prohibited.
- (4) Restricted Zone. Portions of game lands posted as "Restricted Zones" are closed to all use by the general public, and entry upon such an area for any purpose is prohibited without first having obtained written approval of such entry or use from an authorized agent of the Wildlife Resources Commission. Entry shall be authorized only when such entry will not compromise the primary purpose for establishing the Restricted Zone and the person or persons requesting entry can demonstrate a valid need or such person is a contractor or agent of the Commission conducting official business. "Valid need" includes issues of access to private property, scientific investigations, surveys, or other access to conduct activities in the public interest.
- (5) Temporary Restricted Zone. Portions of game lands posted as "Temporary Restricted Zones" are closed to all use by the general public, and entry upon such an area for any purpose is prohibited without first having obtained written approval of such entry or use from an authorized agent of the Wildlife Resources Commission. An area of a game land shall be declared a Temporary Restricted Zone when there is a danger to the health or welfare of the public due to topographical features or activities occurring on the area.
- (6) Scouting-only Zone. On portions of the game lands posted as "Scouting-only Zones" the discharge of firearms or bow and arrow is prohibited.

- (7) Restricted Deer Hunting Zone. On portions of game lands posted as "Restricted Deer Hunting Zones" the use of dogs for taking deer is prohibited, except as allowed by permit as provided in G.S. 113-264(d).
- (8) Day Use Only Zone. Portions of game lands posted as "Day Use Only Zones" are closed to all use by the general public from sunset to sunrise.

The Commission shall conduct a public input meeting in the area where the game land is located before establishing an archery, a restricted firearms, a restricted zone, or a restricted deer hunting zone, or a day use only zone. After the input meeting, the public comments shall be presented at an official Commission meeting for final determination.

(c) Littering. No person shall deposit any litter, trash, garbage, or other refuse at any place on any game land except in receptacles provided for disposal of such refuse at designated camping and target-shooting areas. No garbage dumps or sanitary landfills shall be established on any game land by any person, firm, corporation, county or municipality, except as permitted by the landowner.

(d) Use of weapons. No person shall discharge:
