

### North Carolina Big Game Harvest for 2008-2009

As reported by hunters to wildlife cooperator agents, by telephone and by the Internet.

- Why should a hunter go out of his way to report the turkey gobbler he just shot?
- How many deer were harvested during the season here in North Carolina?
- Was the total deer harvest for this period greater or less than this figure for last season?
- How is this information used?

These are questions that often surface during discussions of North Carolina's big game reporting system. The big game reporting system is a procedure which requires that all wild turkey, boar, bear and deer harvested by hunters here in the state be reported to any one of approximately 2,000 wildlife cooperator agents, by telephone to the Wildlife Resources Commission via a toll-free number or by the Internet. This procedure became mandatory in the fall of 1976.

Successful game management is based on many factors and data, including big game harvest figures. The more that game managers know about population trends and numbers, the easier it is for them to make decisions that affect seasons and other regulatory matters. Sound big game management must be the result of combined efforts of hunters and the staff of the Wildlife Resources Commission.

While the figures in this report represent the reported harvest and may vary from the actual harvest, they are the best such figures available at this time. Please do your share to see that future reports of this nature are as complete as possible by reporting your big game harvests and by encouraging your fellow sportsmen to do the same.

If you have questions about the procedure or this report, please contact the Division of Wildlife Management, N.C. Wildlife Resources Commission, 1722 Mail Service Center, Raleigh, NC 27699-1722.

# Free Hunter Education

Hunter Education courses are offered free by the N.C. Wildlife Resources Commission throughout the state. More than a firearms safety course, you learn about hunter ethics and responsibility, conservation and game management, wildlife identification, specialty hunting, and survival and first aid.

North Carolina law requires all first time buyers of hunting licenses to have successfully completed a hunter education course.

**For course schedules and additional information, go online to [www.ncwildlife.org](http://www.ncwildlife.org) or call (919) 707-0031.**
