

Round Up *for* Wildlife

Purchase any item and “round up” to the nearest \$1, \$5 or more to help conserve bog turtles, frogs and toads, colonial waterbirds, bald eagles, freshwater mussels, northern flying squirrels and other wildlife in North Carolina.

Round Up for Wildlife is an easy way for you to make a donation to help fund habitat programs for nongame wildlife --- animals that aren’t hunted or fished.

Simply tell the clerk to “round up” your purchase to the nearest dollar, five dollars, even 10 dollars! Every dollar you donate goes to help restore and conserve wildlife populations, such as the northern flying squirrel, the green salamander, Appalachian elktoe and the silver shiner.

Round Up for Wildlife donations can be matched dollar for dollar with federal money so your donation today counts twice!

Visit www.ncwildlife.org/give for more ways you can support wildlife in North Carolina.
