# Fly-tying Forum July 2019

**Start Date: 1/24/2019 6:30 PM**

**End Date: 1/24/2019 8:30 PM**

This is our regularly scheduled fly-tying program that takes place on the 4 th  Thursday of each month. The Fly-tying Forum provides tyers with an opportunity to increase their skills. Open to fly-tiers of all skill levels, the fly patterns change each month as a way to encourage learning various new tying techniques and development of tying skills.

This month, we'll cover basic airbrushing techniques for painting poppers while discussing color schemes and markings, then dress the hooks to complete our bugs.

Tyers aged 10 years old and up are welcome, however participants 15 years old and younger must be accompanied by a parent or guardian.

Intended to be an extension of our Beginning Fly-tying Course, we provide each tyer with a handout for each pattern that includes the materials list and tying instructions. These instructional guides may be added to the fly-tying hand book that beginning students received in the Beginning Fly-tying course.

Participants are encouraged to use their own equipment, however, equipment and materials may be provided upon request. There of the limited availability of tying equipment.  Preregistration is required .
