

Fly-tying Forum March 25, 2021

Start Date: 3/25/2021 6:30 PM

End Date: 3/25/2021 8:30 PM

This is our regularly scheduled in-person fly-tying program that takes place on the 4th Thursday of each month. The Fly-tying Forum provides tyers with an opportunity to increase their skills. Open to fly-tiers of all skill levels, the fly patterns change each month as a way to encourage learning various new tying techniques and development of tying skills. This month we will be tying the Clouser Crayfish and the Mighty Mite Hellgrammite. Both of these patterns are favorites for smallmouth bass.

Tyers aged 10 years old and up are welcome, however participants 15 years old and younger must be accompanied by a parent or guardian. This session will be limited to 10 people at the center.

Intended to be an extension of our Beginning Fly-tying Course, we provide each tyer with a handout for each pattern that includes the materials list and tying instructions. These instructional guides may be added to the fly-tying hand book that beginning students received in the Beginning Fly-tying course.

Participants are encouraged to use their own equipment, however, equipment and materials may be provided upon request. There of the limited availability of tying equipment. Preregistration is required .
