

# Tactics for Fall Bass Fishing

**Start Date: 10/14/2021 6:30 PM**

**End Date: 10/14/2021 8:00 PM**

With the weather changing and temperatures cooling, you may pack away your fishing gear to wait for spring. However, you would miss some of the year's best bass fishing as fish are feeding to stock up for the winter.

In this virtual seminar, tournament angler and Sandhills Bass Anglers member, Tommy Young will discuss the fall habitats of Largemouth bass and how to effectively pattern fish through proper lure selection and presentation. Don't miss this opportunity for an open dialogue with an experienced bass angler that will help you bring more fish to the boat.
