

# Basic Fly-Fishing Workshop - January 8th, 2022

**Start Date: 1/8/2022 9:00 AM**

**End Date: 1/8/2022 3:00 PM**

Ready to try your hand (literally) at fly-fishing? Or perhaps need a refresher? This Workshop is perfect for those with zero experience, looking to refine their skills and everyone in between by teaching tactile and visual cues that are easy to understand.

Our intensely trained and passionate volunteer instructors will guide you through the roll cast and basic cast using Joan Wulff's method of instruction. This instruction provides the beginning fly-angler with the foundations for more advanced casting. They'll also go over fly-fishing equipment, setting up a fly-fishing leader, and how to land a fish on a fly-rod during the on-the-water portion of instruction.

It is highly recommended to attend the virtual 'Fly-Fishing Basics: Selecting and Understanding Fly-Fishing Equipment' program before this workshop.

What you need to know:

- Must be at least 13 years old to register. 15 or younger require onsite guardian.
- All fly rods and necessary equipment will be provided.
- Wear: Closed-toe shoes, a hat with a visor and some sort of eye wear (polarized sunglasses recommended).
