

# Public Mountain Trout Waters are Managed by Six Different Classifications

Consult the *North Carolina Inland Fishing, Hunting and Trapping Regulations Digest* for current regulatory information

Definitions:

- An **artificial lure** is defined as a fishing lure that neither contains nor has been treated with any substance that attracts fish by the sense of taste or smell
- An **artificial fly** is defined as one single hook dressed with feathers, hair, thread, tinsel, rubber, or any similar material to which no additional hook, spinner, spoon or similar device is added
- **Natural bait** is defined as any living or dead organism (plant or animal), or parts thereof, or prepared substances designed to attract fish by the sense of taste or smell
- A **single hook** is defined as a fish hook with only one point
