How to View and Print Your Permit Hunt Information

1. Log into your Go Outdoors North Carolina account using your date of birth, last name, and WRC ID.

2. Upon logging in, you will see your customer profile information. To view your permit hunt application information, select “Permit Hunt Application & Awards” (see example below).

3. Select the season year for which you wish to display permit hunt information. For the current 2023-24 hunting season, you would select “2024” (see example below).

4. To print your application or permit, select “Print Application” or “Print Award” for the item you wish to print (see example below). The “Print Award” option will print the permit if you were successful in a draw hunt. This print option is not available for the Tundra Swan permit. Swan permits will be mailed to successful applicants via USPS.
